+ A BRIEF HISTORY OF THE EUROPEAN TEAM CHAMPIONSHIPS +

This European team final in Skara 1980 is the 7th in the row. The first was in Wien 1957.

The championships have been carried through with teams placed in preliminary groups and the winners qualifying for the final. Last time's champion has been directly qualified - this every time being the Sovjet Union! The Russians have won the six first championships quite clearly. And - not too surprising - the veteran of world's TOP chess, Tigran Petrosjan (50) has played in the team all the times. Ex-world-champion-colleague Mikhail Tal played every time except 1965.

Besides of Sovjet Union, Yugoslavia too has played in every final, and so have their eminent players Svetozar Gligoric and Borislav Ivkov.

Switching over to the previous results, we will note that both numbers of players in the teams and numbers of teams have changed during the time.

- I. European Team Championship. Wien (Austria) 1957:
4 teams - 10 players - double round

ENGLAND WON... THE OLYMPIAD

As some of our readers know, it is at the moment unclear whether the 1980 Chess Olympiad will be in Malta as decided by the FIDE-congress.

There seem to be problems finding a reserve organizer of the event. So if everything goes wrong, the bad result may be no 1980 Chess Olympiad at all.

What then? Well, then this Olympiad was in Skara! With the reservation that a few countries may object or simply dislike the list of results, we will present to the chess world "The 1980 (reserve) Chess Olympiad".

Many of the strongest nations are represented here in Skara. The four highest boards in each match is their Olympic team. So here are the results:
