

# PRACTICAL

## ENDGAME

### PLAY

ANDREW

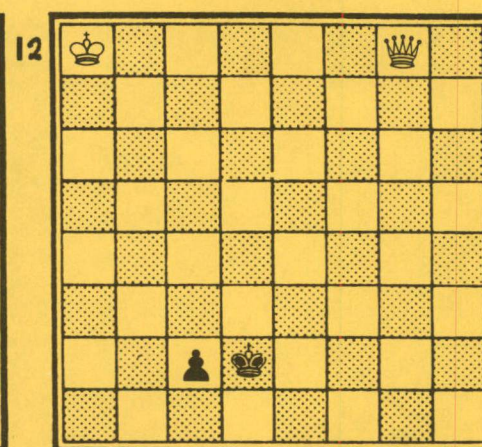

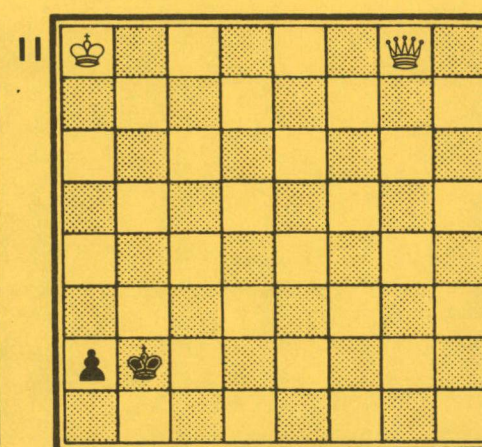

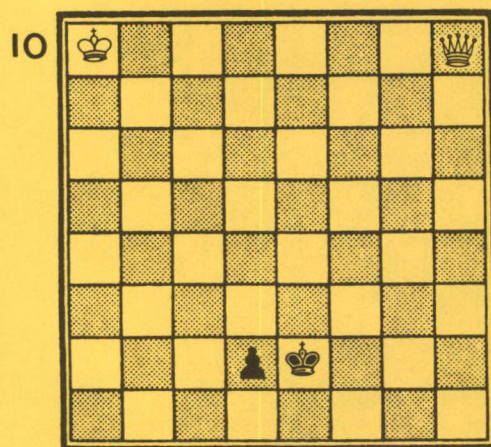

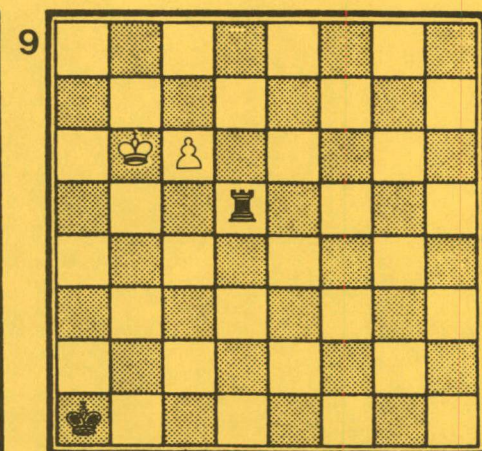

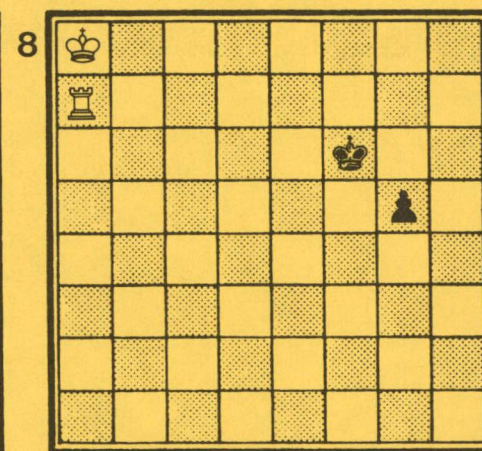

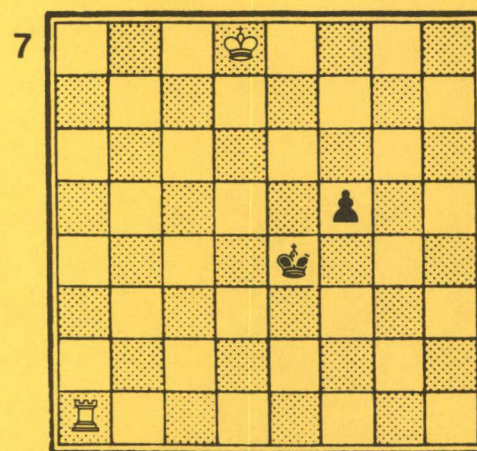

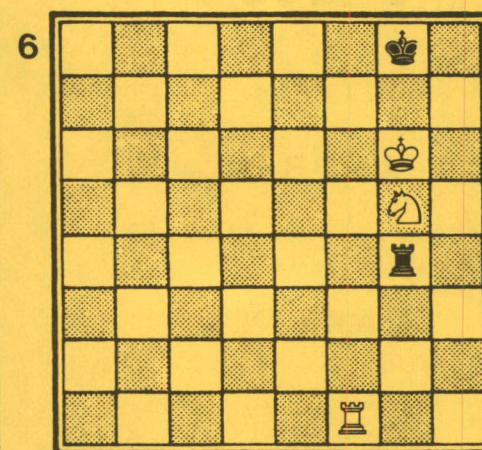

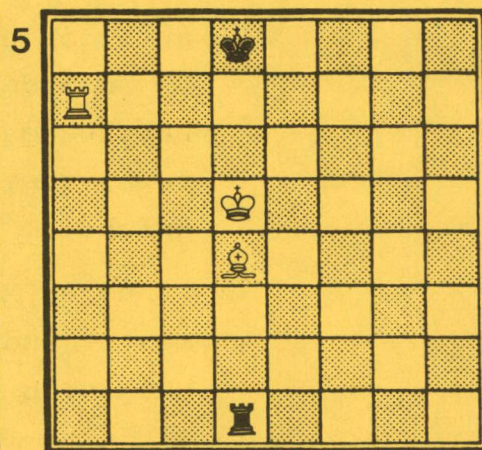

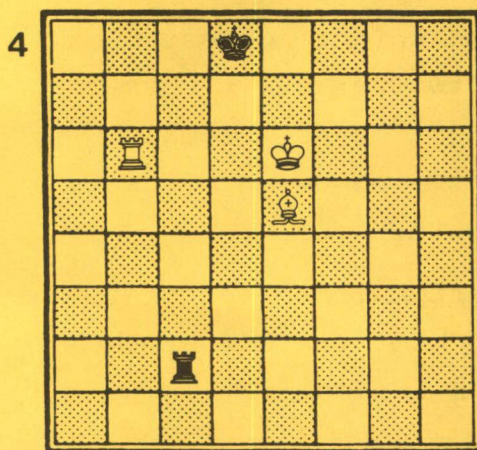

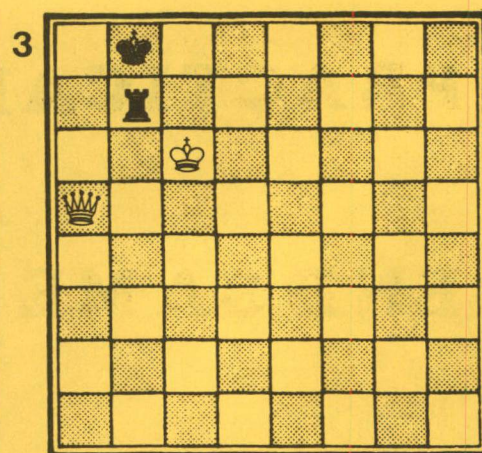

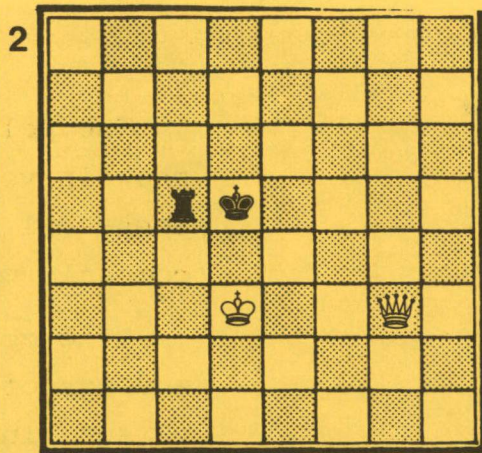

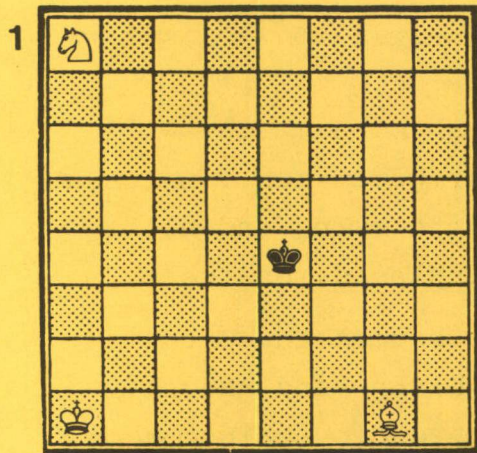

MARTIN

The polish of a master will show in your game when you learn these all too common, and all too commonly misplayed, endings.

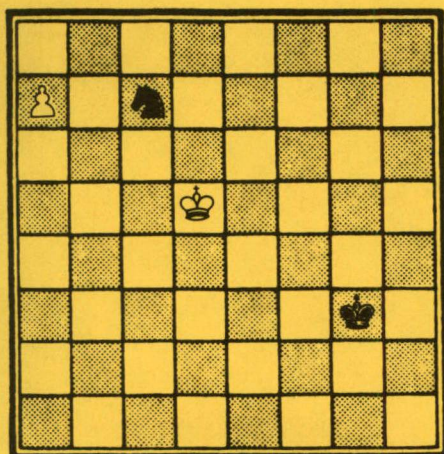

Side one covers the piece endings of bishop and knight versus king, queen against rook, rook and bishop against rook, and rook and knight against rook.

On side two various pieces do battle against pawns - rook v. pawn, queen v. pawn, and finally knight v. pawn.

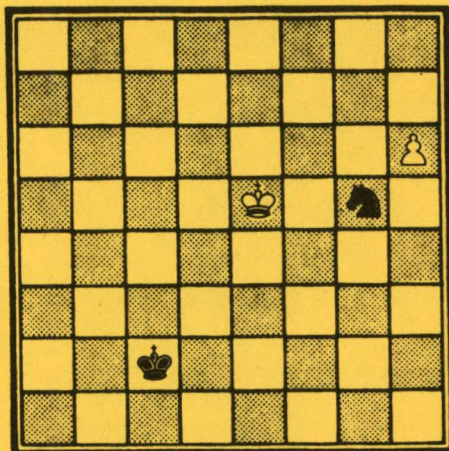

Andrew Martin is an international master and chief trainer at the YMCA club in London.
