1 e4 c5 2 Nf3 e6 3 d4 cxd4 4 Nxd4 Bc5

1 e4 c5 2 Nf3 any 3 Be2
If you play 1 e4 but need an answer to the Sicilian - then look no further. This tape, the 1982 analysis of an original Basman Opening, is effective against all Sicilian formations. The opening has proved very successful in club chess, as much as in the international scene.
3. **THE QUEEN'S BISHOP ATTACK** by Michael Stean - descriptive 90 mins £4.75
1 P-Q4 N-KB3 2 B-N5
This opening has been employed with brilliant success by Grandmasters Vahanian, Hort and Jansa. Stean shows how it can be used by the club player who wants an all-purpose line which by-passes the many standard defences to 1 P-Q4
4. **THE AGGRESSIVE CARO-KANN** by Raymond Keene 2x60 mins + booklet £7.50
1 e4 c6 2 d4 d5 3 Nc3 dxe4 4 Nxe4 Nf6 5 Nxf6 gxf6
This line, featuring Black in a combative role, marks something of a departure from the passive reputation of the Caro-Kann defence. Keene shows how the doubled pawns, coupled with queen side castling and the open 'd' and 'g' files give black active play.
5. **NIMZO'S OTHER DEFENCE** by Tim Harding - descriptive 90 mins £4.35
1 P-K4 N-QB3
Explore new alleyways with Tim Harding with an opening that begins on move 1! This opening is better than its reputation, and you should get good positions with it. (Moves are spoken quite fast)
6. **THE ENGLISH DEFENCE** by Raymond Keene 60 mins £4.35
1 ... b6 against 1 c4 d4
According to Keene, this line is very effective against queen's side and stronger than its counterpart, Owen's Defence (1 e4 b6). This tape aims to equip the Black player with a new opening weapon against 1 d4 2 c4
7. **THE ENGLISH DEFENCE FOR THE EIGHTIES** 2x90 mins £7.50
With the escalation of play at Grandmaster level in this line, an update, giving more extensive general description and an intensive analysis of the gambit variation, became a necessity. The two c90 cassettes come with a 34-page booklet. Critical games examined include Browne-Miles, Magerramov-Psachis and Akessan-Short.
8. **A DEFENCE TO D4** by M.Basman 90 mins £4.75
Looking for a sound defence, fairly easy to play, that will serve you against most of the Queen's side openings? This system, a type of Slav, will give you the confidence you need as black against d4.
9. **A STRONG POINT VARIATION** - descriptive 90 mins £4.75
1 P-K4 P-K4 2 N-KB3 Q-K2
You need no longer fear the Ruy Lopez! Be original, mystify your opponent, yet obtain good positions with this new line!

The companion cassette to QB attack (1 d4 Nf6 2 Bg5) this line gives White an original and effective answer to 1 d4 d5.
12. **CENTRE COUNTER with 2 ... Qxd5** by Shaun Taulbut 90 mins £4.75
Since Bent Larsen beat Karpov in this line, several other people have taken it up and found nothing wrong with it. Its advantages for the club player are surprise value, simple strategy and free piece development.
13. **PETROFF DEFENCE** by M.Basman 90 mins £4.75
Some call this the complete defence to 1 e4. White can take a draw, but may burn his fingers trying for more.
14. **POLISH DEFENCE** by M.Basman 90 mins £4.75
1 d4 b5
St. George's Opening (see no.10) is even more effective on the queen's side and cuts straight across White's plans to follow up with 2 c4. Basman gives general ideas on side 1 and a careful analysis of the implications of the early move order, involving the fianchetto of the Black bishop on side 2.
15. **BUDAPEST DEFENCE** by Otto Hardy 90 mins £4.75
1 P-Q4 N-KB3 2 P-QB4 P-K4 3 PxP N-N5
A neglected defence, but one we feel is sound and offers black good development, rather than the cramped defensive position so commonly his lot against queenside openings.
16. **BISHOP'S OPENING** by Shaun Taulbut 90 mins £4.75
Currently a very popular continuation among leading British players after 1 e4 e5. Here 2 Bc4 allows Black to set up a centre of his own which he then finds difficult to defend.
17. **THE MACHO GROB** by M.Basman 2x90 mins £7.50

The sequel to the trail-blazing Macho Grob tapes, featuring Basman's 1982 British Championship games, where he played the opening every round.
20. **PIONEERING PLAY IN THE ENGLISH DEFENCE** by Jim Plaskett 90 mins £4.75

21. **DEATH OF THE BENKO** by Otto Hardy 90 mins £4.75
1 d4 Nf6 2 c4 c5 3 d5 b5 4 cxb5 a6 5 Nc3
David Goodman tried to bash it. Now along comes Otto to bury it, demonstrating a forcing series of moves which lead to mate in 33. Don't believe it? Well just listen...

The four tape boxed set covers all the lines of the King's Knight gambit, and is accompanied by a comprehensive booklet summarising the games and analysis present on the tape.
5. **SICILIAN CLOSE** by Tim Harding 2x90 mins + 6 Turnover books £10.95

7. **SICILIAN SCHEVENINGEN** by Jim Plaskett 90 mins £4.75
The hedgehog formation of pawns at e6 and d6 has proved enormously resilient against all White attacking attempts. A thoroughly dependable line, sufficiently asymmetrical to offer Black good long term winning prospects.

10. **FRENCH ADVANCE VARIATION** by Shaun Taulbut 90 mins £4.75

Theory gives a nod towards White in this complex line, but Taulbut's description shows interesting play and resources also for the Black side.
12. **A REPERTOIRE FOR THE D4 C4 PLAYER** by Raymond Keene 2x90 mins £7.50
It is no longer a simple matter playing 1 d4, since you cannot rely, as happened fifty years ago, on your opponent defending the Queen's Gambut Declined. No, Black may choose from up to 15 fully-fledged defences, and you need to be primed against them all. Keene does this for you, covering lines arising from 1 ... d5 on tape 1, and those arising from 1 ... Nf6 on tape 2.

16. **3e4 IN THE ENGLISH** by Tony Miles 90 mins £4.75
1 c4 Nf6 2 Nc3 e6 3 e4
The most popular line against the English Opening (1 c4) is ... Nf6 ... e6 followed by a queen's fianchetto and control of e4. Miles' line, with an early e4 by White, is a forceful counter to Black's plans. Side 1 deals with the reply 3 ... d5, side 2 investigates 3 ... c5.
17. **THE KINGS FIANCHETTO OPENING** by Raymond Keene 65 mins £4.35
For the player with limited study time available, Ray Keene suggests a formation involving the moves P-KN3, P-Q3, N-KB3, B-N2, O-O, playable with either colour. The handling of middle game positions arising from the opening is discussed on the tape, with theoretical assistance given in critical lines which occur when playing the system as Black.

Analytical Tapes

The analytical tapes are just as important for the improvement of one's play as the opening tapes. By listening to different masters speaking, one can understand their approach to chess and how they work at a position. Above all, the listener himself can take part in the analysis, by turning off the tape as directed and studying the position on his own, before turning on to hear what the master has to say. Usually, with book study, this advantage is lost because the reader can see the next move on the page.

1. **SMASHING VICTORIES AGAINST THE SICILIAN** by Nigel Povah
